

Applying to Ontario University Programs 2026-2027

If you are applying for a **January 2027 program**, contact the university directly before deciding if applying for OUAC Eligibility through TVO ILC is right for you, based on the deadlines for the program.

To apply to a Fall 2027 undergraduate program with TVO ILC, please follow these steps to determine your eligibility:

1. Click on the [OUAC Eligibility Form](#) tab found on your dashboard. Please note that only students who are able to graduate by August 2027 (June is recommended) will be eligible for electronic marks transmission through TVO ILC. If the OUAC Eligibility Form tab is not visible on your dashboard, please call TVO ILC to discuss why it is not appearing – *if your answers determine that you are not eligible, the tab will not reappear, so it is important to check with TVO ILC Guidance.*

You will be asked to upload an official OST when submitting OUAC eligibility to TVO ILC.

An official transcript must be on **green transcript paper, signed, and sealed/stamped by the institution issuing the transcript.** This must be your most recent transcript. Colour scans are ideal.

If you *do not have an official OST*, you must request one from your previous high school.

If TVO ILC has been the only school where you have earned credits, upload the following statement in place of the OST: **“I have only earned credits at TVO ILC.”**

2. Answer the questions. If you answered a question incorrectly, you may call TVO ILC to have your OUAC Eligibility Form tab reset but be careful – this could mean that you are not eligible.
3. If you are eligible for electronic marks, all of your Grade 11 and 12 University/Mixed marks, your TVO ILC course enrollments, midterm and final marks as well as the Projected Courses that you list (see below) will be sent to OUAC *once you have completed all of the remaining steps below*
4. If you are *not eligible for electronic marks transmission* (you are determined to be a [Group B OUAC applicant](#)), you will need to send your marks directly to institutions through the ‘Request Documents – Self Serve’ (for enrollments and midterm marks) or ‘Request Documents’ (for final marks) link on your dashboard.
5. Upon successfully completing the OUAC eligibility process, you will receive an email with next steps. This email will contain important information including **adding Projected Courses** and **providing consent** to share information with OUAC. If you do not **provide consent** your data will not be sent to OUAC. Please allow 3 to 5 business days to process your request.

For Eligible OUAC Applicants

Before you apply:

- Use the [Ontario Universities](#) link to research universities and the [University Programs](#) link to research Ontario University programs. This publication also includes important information regarding financing (fees, applications and entrance scholarships) and the application process itself.
- Participate in [virtual tours, events, and webinars](#) found on the OUAC website.
- Connect with university representatives and access online resources.
- Determine the program requirements (*including prerequisites and additional admission criteria*) and review the deadlines. Deadlines vary by institution and program.

How to Apply:

- Review the [Application Guide](#) to create your OUAC account and OUAC’s [Important Dates](#). **Note: When creating your OUAC account, be sure to provide a valid OEN (Ontario Education Number) and name that are the same as what TVO ILC has on file.**
- Complete midterms or finals at least **two weeks prior** to OUAC mark submission deadlines.
- The deadline to pay for your completed OUAC application is **January 15th, 2027**. It is possible to apply after this date but only to programs with available space.

Additional Help and Resources

For questions about your application, call 519-823-1063. Be sure to have your OUAC reference number ready.

Applying to Universities outside of Ontario

- Visit Universities Canada and contact the universities directly – some Canadian universities outside Ontario can receive your academic data through OUAC, so check for that.
